

Curious to know more about how BMB could optimize your Urgent Care Billing?

Urgent Cares provide a vital first line of medical care in your communities and BMB is committed to supporting this model to make it profitable.

The BMB Difference

- Automated Claims Processing delivers most claims to the payers within a few hours
- Dedicated phone line to handle patient inquiries
- Continuous communication with your front desk to help us address issues before they become trends
- Education to keep pace with the continually evolving business and government guidelines
- Detailed understanding of all insurances, participating and non-participating and how this affects the revenue cycle

“The key to Urgent Care billing is pushing clean claims and keeping up regular communication with the front desk. By working together, we’re able to stop any issues before they become trends.”

Zac G., Urgent Care Billing Specialist

“BMB not only has superb customer service at the vendor level, but also at the patient level. Craig and his team are true professionals.”

Jen L., Business Manager
